RARITAN

Marine Products for Power & Sail

ATLANTES®

Good enough for your home but designed for your boat

New

- Elongated Bowl models
- Whisper Flush operation when installed with pressurized water

Every Atlantes conserves water with three flush options: normal (3 quarts/2.85 liters), water saver (1 quart/.95 liters) and dry flush.

Self-contained Model (A5* or A6*)

- All working parts are contained inside the one-piece porcelain bowl for convenience
- Quick and easy raw water flush installation

Freshwater Solenoid Model (A5F* or A6F*)

- Whisper Flushsm design for quiet operation
- Less maintenance and odors than raw water models
- Connects to vessels existing pressurized system

Remote Intake Pump Model (A5R* or A6R*)

- Reduces noise levels
- Easier access to intake pump, more flexible installation when long runs are required

ALL Atlantes

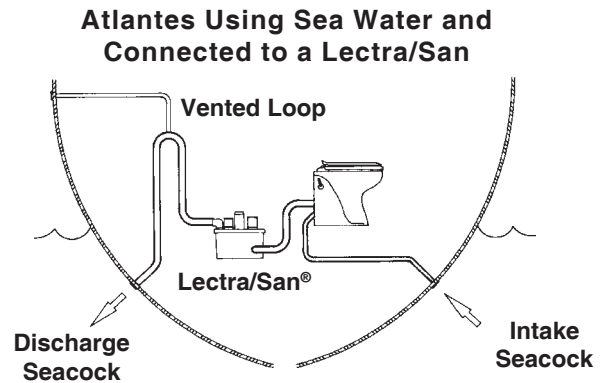

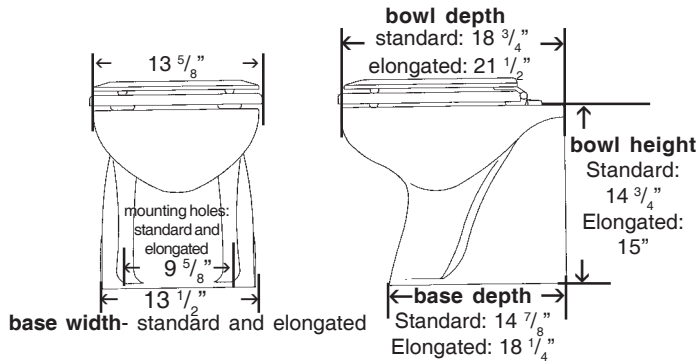

- Simple and flexible installation for mounting above or below waterline.
- Available with integral flush lever (A5) or wall-mounted switch panel (A6).
- Sea Fresh Systems available for all remote seawater pump (R) and Freshwater solenoid (F) models
- Can be used with on-board treatment systems (such as the Lectra/San®) and/or holding tanks.
- Easy to clean and maintain
- Adjustable automatic timed-flush feature
- Consistent, trouble-free performance; gold-plated connectors are standard for superior electrical contact
- Available for 12, 24, 32V DC or 120/240V AC.

Raritan manufactures equipment for pleasure boats throughout the world. Products include marine toilets, waste treatment systems, icemakers and water heaters.

Committed to the environment and preserving sea life, Raritan designs products to help maintain an environmental balance and ensure the quality of marine waters. In addition, the company has achieved ISO 9001:2000 certification for quality.

To order the correct unit for your installation make one selection from each column above.

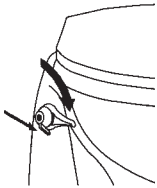

Model samples:

A512 - Atlantés, flush lever, white bowl, integral intake pump, 12V

AL6R24 - Atlantés, elongated bowl, wall switch, remote intake pump, 24V

A5 models

A flush lever on the side of the bowl activates an adjustable timed flush and allows selection of water saver, normal or dry bowl flush mode.

A6 models

All the features of the A5 models but are supplied with a Wall-Mount, adjustable time, touch pad flush control.

NEW

A4 models

Supplied with just the discharge pump and a momentary flush control, you supply the intake water.

Intake flush water systems available from Raritan if needed.

Specifications

Units Voltage	Intake pump Models	Freshwater Solenoid Model
	Amp. draw @ nominal voltage	Amp. draw @ nominal voltage
12 VDC	20	11
24 VDC	10	5.5
32 VDC	8	4.5

Additional parts that are needed for installation: fuses or circuit breakers, wiring, hose clamps, two stainless steel mounting bolts or lag screws and washers, $1 \frac{1}{2}$ " (38mm) I.D. sanitation hose, and $\frac{3}{4}$ " (19mm) I.D. sanitation hose.

Approximate Shipping Weight:

Household size bowl 70 lbs (32 kg)
Elongated Bowl 85 lbs (39 kg)

L1001 0104kgs
