

P510MAM Multipass Fuel Polisher

Racor Fuel Filter Water Separator

Fuel Polisher Filtration Solutions

The New Racor Fuel Polisher removes contamination at the source - the fuel tank.

Most filtration solutions block contamination as it moves through the fuel system on the way to the engine.

As contamination builds, fuel filters will choke leading to inadequate fuel delivery to the engine, damage to injectors and other engine components, increased emissions, and decreased performance.

The Racor fuel polisher removes contamination from the fuel tank allowing the fuel system to run at peak performance.

By setting up a new fuel circuit around the fuel tank contaminates such as water, dirt and rust will be removed from the fuel delivery circuit, resulting in increased filter life, better performance, and less downtime to change filters.

Fuel polishing can be used in Marine, Ag and off highway, construction, powergen, and remote equipment

- Water accumulates in fuel tanks by drawing in moist air during the day and condensing at night
- Bio-fuels and additives can loosen deposits on fuel tanks.
- Contamination and debris through distribution.

P510MAM Multipass Fuel Polisher

Racor Fuel Filter Water Separator

Fuel Polisher Flow

Product Features

- Bottom loading cartridge design
- Aluminum and stainless steel construction
- Approved for all bio-fuels to b20, #2 USLD and JP8 fuels
- Aquablock media cartridges
- Flow rate to 60 GPH (220 LPH)
- Stainless Steel Water in fuel sensor
- UL 1105 fire test Certified
- 22 PSI MAX pressure output
- Electric pump operates in both 12V and 24V applications
- Electrical wire harness with control switch included

Product Specifications

Maximum Flow Rate	60 GPH (220 LPH)
No. of Ports	2
Port Size	M16-1.5 ORB
Water Sensor	Standard
Micron Rating Available	10
Operating Voltage	12V and 24V applications

Available Part Numbers

P510MAM	FFWS, 10 micron
R58065-2	2 micron Replacement Element
R58065-10	10 micron Replacement Element
R58065-30	30 micron Replacement Element
RK 20725	12V Water Detection
RK 20725-12	24V Water Detection
RK 12870	12V Water Detection w/ Buzzer
RK 12871	24V Water Detection w/ Buzzer
