

SNAPP Filter - Marine

The One-Piece, High-Performance Snap-In Fuel Filter Water Separator

Quick-Service Small Outboard Engine Filter

Racor is pleased to announce the SNAPP filter, a small, quick service filter with premium filtration capabilities.

Our patented bracket attachment method and quick connect fittings result in filters that require no tools to service.

The one piece bonded construction means that there are no replacement seals. This also results in E10 gasoline and B20 biodiesel compatibility.

Available with or without drain

Product Features

- SNAPP features premium Racor Aquabloc® filtration and OEM quality construction.
- The durable construction resists damage from impact, pressure spiking, and corrosion.
- Universal bracket accommodates bolt spacing of 2-2.5" apart, fitting many popular existing mounting locations.
- The clear bowl allows a water-in-fuel condition to be immediately visible.
- Service by simply squeezing the tabs together and pulling. Only 2.5 inches in front of the filter is required for clearance. To reverse the flow direction, the filter can simply be turned around in the bracket.
- Clear bowl for at-a-glance inspection. The rugged clear bowl allows on-the-spot inspection for water in fuel - a significant advantage when troubleshooting fuel quality.

SNAPP Filter - Marine

The One-Piece, High-Performance Snap-In Fuel Filter Water Separator

Part Numbers for Marine SNAPP™ w/out Drain

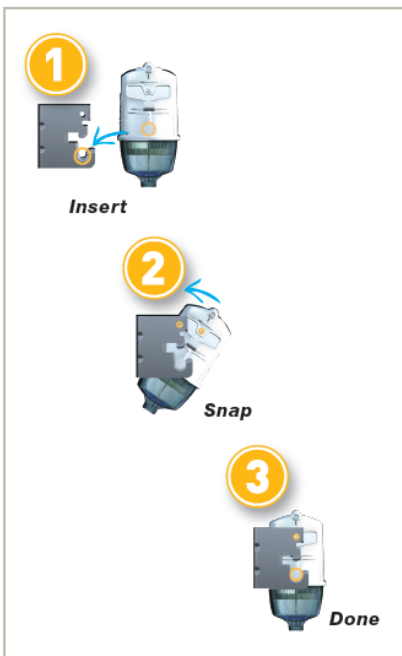

First Fit Assembly	Replacements
23281-02	R23280-02
23281-10	R23280-10
23281-30	R23280-30

Coming Soon: Part numbers for the Marine SNAPP™ with drain.

Specifications

Rated Fuel Flow	26 gph (100 lph)
Height	7.8" (198 mm)
Width	3.8" (97 mm)
Depth	4.1" (104 mm)
Body Material	Nylon 6 Plastic
Bracket Material	Stainless Steel
Port Size	3/8 quick connect fittings (per SAE J2044)
Micron Rating Available	2, 10 or 30

Installation

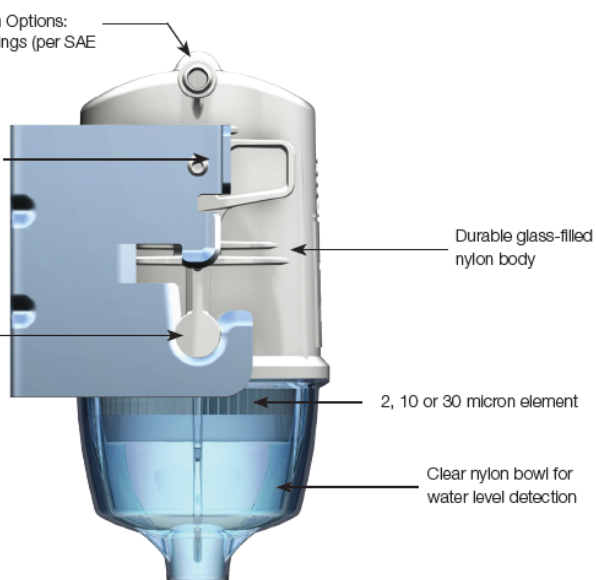

Features

Fuel Fitting Connection Options:
3/8 quick connect fittings (per SAE J2044)

Large finger tabs for one-handed removal

Patented quick attachment method (pivot and snap fit) - no tools required
